Summary

Machine Learning Engineer with 3 years of experience designing predictive models, natural language processing pipelines, and AI solutions. Strong Python programming skills and experience with deep learning frameworks.

Skills

AI Labs | February 2022 - Present

- Developed NLP models for sentiment analysis and customer feedback classification.
- Optimized machine learning pipelines to reduce model training time by 30%.
- Collaborated with software engineers to integrate ML models into production systems.

Data Scientist Intern

Education

Bachelor of Technology in Computer Science

Amrita Vishwa Vidyapeetham | Graduated 2021
